The Right Care Right Now

TKO FX Splint

This adaptable splint helps you find a comfortable fit and effective support for your hand and fingers when recovering from finger sprains, strains and fractures. The TKO provides the injured finger(s) immobilization needed to comply with the treatment plan designed by your provider and be worn comfortably all day & night.

Design Highlights:

- One splint acts as a Boxer's Fracture Splint, Radial Gutter Splint, and Middle/Ring Finger Splint.
- Straps are adjustable for fit and comfort.
- Distal buddy strapping eliminates rotation of the fingers.
- Padded stays are malleable and allow for a comfortable and customized fit.

Indications for Use:

- Boxer's Fracture (ulnar gutter) Radial Gutter Fracture
- Middle & Ring Finger Fractures
- Finger Tendon Strains or Sprains, Tendonitis, Arthritis

TKO FX Splint
